LETTER OF INTERNSHIP

To Whom It May Concern,

This is to certify that **MR. NISARG K. CHASMAWALA** successfully completed an **8-month internship** at **SYSAP TECHNOLOGIES, PUNE**, where he gained hands-on experience in **VULNERABILITY SCANNING AND PENETRATION TESTING** under the **guidance of MR. SATEESH KUMAR SINGH**, an industry expert in cybersecurity.

The duration of his internship was from **1st June 2023 to 31st January 2024**.

During his tenure, **MR. NISARG K. CHASMAWALA** demonstrated a strong understanding of **network security, penetration testing methodologies, and vulnerability assessment techniques**. His responsibilities included:

- **Conducting vulnerability assessments** on various network infrastructures and web applications.
- **Performing penetration testing** to identify security weaknesses and suggest remediation strategies.
- **Creating, monitoring, and troubleshooting network architecture** to ensure system integrity and security.
- **Assessing security threats and implementing mitigation strategies** to enhance cybersecurity measures.
- **Gaining proficiency in computer security, information security, and ethical hacking tools** used in industry-standard security practices.

Under the expert mentorship of **MR. SATEESH KUMAR SINGH**, he **developed a strong foundation in ethical hacking, threat analysis, and security auditing**. His dedication, analytical skills, and problem-solving abilities were evident throughout the internship.

We appreciate his contributions to the team and wish him the very best for his future endeavours.

Warm regards,
Swati
